

## PRESS RELEASE

Amsterdam, 3 July 2014

### BinckBank introduces Binck turbos

Today BinckBank starts with the issuance of turbos in the Netherlands. A turbo allows clients to invest with leverage in underlying assets such as the AEX-index®, the DAX-index®, many Dutch and international stocks, and precious metals. This way the bank meets the demands of experienced and active investors who like to invest in turbos. BinckBank N.V. acts as the issuing institution and has appointed the Swiss bank UBS as market maker. Trading takes place through the Citigroup Automated Trading System (Cats).

“Our clients make extensive use of turbos. At this moment more than 15 per cent of our investment transactions is in a turbo. At the same time we see a development in the market that large financial institutions pull turbos out of the market due to increased costs for technology. To ensure the quality and continuity of this popular product, we therefore want to offer our own turbos to our experienced customers”, says Koen Beentjes, CEO of BinckBank.

The spreads between bid and offer prices of Binck turbos are among the smallest in the market. The instruments are tradable between 8:00 and 22:00, in line with the opening hours of the European and American stock markets. Binck turbos are available exclusively to customers of BinckBank in the Netherlands.

#### Many training opportunities

BinckBank offers all customers a wide range of training opportunities to improve the knowledge about financial products such as turbos. Customers have free access to online learning tools, such as educational webinars and interactive tutorials. These are available 24 hours per day and 7 days a week. Customers can also test their knowledge by obtaining a Financial Driver's License.

Customers can find more information about Binck turbos at <http://www.binck.nl/turbos>.

The prospectus and final terms for Binck turbos are available via [turbos.binck.com](http://turbos.binck.com).
